

Designed for all the ILEAnet Community members this newsletter presents up to date regular topics and ad hoc items.

SAVE THE DATE – 12-13 May 2020 - ILEAnet PUBLIC WORKSHOP #3

ILEAnet project is pleased to invite you to its 3rd Public Workshop entitled:

"Identification & control of irregular migration through modern technologies"

The event will take place on 12-13 May 2020 in Warsaw, Poland. It is important that LEA practitioners are well represented to share best practices and discuss their innovation needs to the security research community for the control of irregular migration.

The objectives of this event will be:

- To present situation awareness on LEAs' challenges and needs about how modern technology could support identification and control of irregular migration.
- To demonstrate best practices and solutions existing in this domain and explore potential gaps and opportunities.
- To identify and showcase ongoing and finished EU projects that are aiming to address the concerned challenges and needs (and also solutions from industry).
- To facilitate discussion and further networking between practitioners to support cooperative problem solving and exchanges of fruitful practice.
- For internal purposes, to advance and complete the ILEAnet work conducted in the project's Work Package 2 on law enforcement challenges and needs, and Work Package 3 on gaps and opportunities in available expertise, best practices and technologies.

If you would be interested to participate, please contact your National ILEAnet Contact whose details can be found on the ILEAnet [public website](#).

We look forward to welcoming you on 12th and 13th May 2020 in Warsaw!

The project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 740714.

The 1st iProcureNet Advanced Security Procurement Conference will take place in Lisbon on 31st March – 1st April 2020.

The event has been designed as a forum to exchange on the importance of procurement to foster innovation, discuss the ethics of procurement and learn more about the policy framework of procurement.

It also presents a unique opportunity to shape and contribute to major iProcureNet outputs such as the joint procurement toolbox, with the possibility to participate to hands-on workshops on the legal framework of CBP and on innovation procurement & PCP with renowned experts from all over Europe.

Caroline Schmidt (ILEAnet INC for Austria), Raul Savimaa (ILEAnet SC member & INC for Estonia and Pawel Rybicki (ILEAnet SC member) will take part to the Conference.

From 28 to 30 January 2020, Major Thomas Fressin (Gendarmerie Nationale and ILEAnet INC for France) was present at The International Cybersecurity Forum* (FIC), which is the leading European event on cybersecurity.

This event relies on a trade show for buyers and suppliers of cybersecurity solutions to meet and network. This is also a forum to foster reflection and exchanges among the European cybersecurity ecosystem.

It was an opportunity for him to explain the ILEAnet approach and how practitioner's networks can improve the identification of LEA needs in cybersecurity issues.

FEEDBACK STEPWISE WEBINAR

On February 11, 2020, a webinar was held as part of the ILEAnet project. This webinar was dedicated to the European STEPWISE project.

STEPWISE is concerned with delivering an innovative platform to support the cooperation, coordination, and cross-sectoral preparedness of Law Enforcement Agencies and their partners (public and private) involved in the design and protection of public spaces.

The platform aims to enable the rapid creation of Virtual Reality mock-ups of real-world spaces and buildings where security and crisis plans can be devised and assessed against a wide variety of threat scenarios. Its immersive approach will help police experts to work on simulated

situations with private security officers, fire crews, urban planners, public space operators, city managers, etc. to assess the vulnerability of public spaces and jointly develop and evaluate strategies to improve both their security and resilience without having to descend upon each of them.

This project has received funding from the European Union's Internal Security Fund – Police – under grant agreement N° 815182. It has covered the period from November 2018 to October 2020. **Patrick Garnier** ([Diginext](#) – France) is the project coordinator.

17 people from 8 countries participated in the ILEAnet webinar. Firstly, Patrick Garnier presented the objectives and the project, and then a moment of discussion and exchange extended this webinar.
