

# NEWSLETTER #10

November-December 2019

Designed for all the ILEAnet Community members this newsletter presents up to date regular topics and ad hoc items.

## NEXT PUBLIC WORKSHOP ! TECHNOLOGY AND MIGRATION

The 3rd ILEAnet Public Workshop (PW3) will focus on Technology and Migration, with the twofold objective of providing a forum for end-users and learning more about projects that are developing technologies to address some of the challenges faced by law

enforcement agencies working in the field of Migration and Border Control. Due to availability issues, the location of Bratislava, which was initially chosen, has had to be unfortunately reconsidered. With the assistance of EFIC, the PW3 should be held in Warsaw, where the FRONTEX headquarters is located. The dates are still under discussion. The practical details of the event will be confirmed and communicated as soon as possible. In the meantime, if you have colleagues working in the field who might be interested in participating in the event, or if you know of any projects that might be suitable as case studies, then please send us the details to [ileanet-sc@eurtd.com](mailto:ileanet-sc@eurtd.com).

## PROJECTS' update

### RAMSES

In its capacity as ILEAnet project's coordinator, the DCI participated on 14 November 2019 in the closing conference of the H2020 RAMSES project. RAMSES has developed an investigation platform for the analysis and monitoring of financial flows linked to malware (ransom). It was developed in collaboration with the cyber units of the Belgian, Portuguese and Spanish Federal Police. This tool offers a large number of digital investigation functionalities as well as the correlation of the collected digital elements. The objective of this project in the coming months could be to finance its evolutive maintenance, hosting, developments adapted to the business needs of new users (software, training, etc.) and its free availability to the LEA partners in the project. Discussions are currently ongoing. The "research" projects are having an impact. RAMSES project website <https://ramses2020.eu>

2019

6-7  
November  
HELSINKI

Thierry Hartmann (ILEAnet Project Coordinator - DCI French Ministry of Interior) and Raul Sauvimaa ( ILEAnet Work Package 2 leader - Estonian Police and Border Guard Directorate) participated in the 2019 edition of the Science and Research Event co-organised in Helsinki by the European Commission and the Finnish Council Presidency. The SRE is the annual meeting where industries, governments and knowledge institutions meet to discuss current developments and challenges in security research in Europe. The 2019 edition focused on promoting the commercialisation of research results. The SRE also highlighted the increasing involvement of European agencies in research (Frontex, Europol, EU LISA).

The French Ministry of the Interior and its operator CIVIPOL participated in the 2019 edition of MILIPOL, the main event dedicated to homeland security and safety, which took place in Paris on 19-22 November 2019. Milipol is the ideal forum to present the latest technological innovations in the field of homeland security, to respond effectively to the needs of the entire sector and also to address current threats and dangers. The event covers all areas of homeland security, which is why many participants visited the exhibition. CIVIPOL and the French MIF took the opportunity to disseminate ILEAnet project's outcome by distributing project's flyers to attendees visiting their booth.

## QUESTIONS OF THE MONTH

**A question, an information to communicate to ILEAnet members? Do not hesitate to post a message on the platform**

### **The reception of the public in a police station and the management of flows**

<https://ileanet.eurtd.com/questions/view/225401/the-reception-of-the-public-in-a-police-station-and-the-management-of-flows>

### **Crisis management by non-specialized police officers, law enforcement agencies**

<https://ileanet.eurtd.com/questions/view/225400/crisis-management-by-non-specialized-policemen-law-enforcement-agences>

### **Pension systems for Police in your country**

After the launch of the newsletters and webinars, we are pleased to announce the launch of a new animation for 2020: "Project of the Month". During one month, we will highlight a national or European project on the ILEAnet platform in order to make it known, to valorize it and to exchange for possible perspectives. Let us know which projects in your countries can be included in this animation.

**Almost 300 references in the ILEAnet knowledge factory! Do not hesitate to consult it and contribute**

We would like to draw your attention on a specific tool available on the ILEAnet Online Platform:

The Knowledge Factory. The ILEAnet Knowledge Factory aims to collect, share, evaluate and search "Knowledge" in security research, which means resources such as national and European projects, academic publications, reports, white papers, official publications, websites, events...

**We would like you to contribute in feeding the Knowledge Factory!** Adding knowledge might be a good way to increase visibility of your works. So feel free to use this tool as yours! Reach the KF landing page:
